Protecting your assets at work

In 2012, over \$15 billion dollars were lost due to property related crimes.*** You need to display your merchandise next to your windows, but your windows are one of the weakest points of entry on your building. 3M Security Window Films & Attachment Systems will make it more difficult to get through your window, helping to reduce your losses during smash and grab crimes.

Protecting your loved ones at school

The glass on windows and doors of a school can be a vulnerable entry point into the building. Most schools do not have fortified glass to prevent shattering, resulting in potentially easy access through the window. We are proud to say that 3M Security Films & Attachment Systems have already been incorporated into hundreds of schools.

Security with a payback

Unlike many security upgrades, 3M Window Films can also provide a payback in as little as 3 years. 3M Security Window Films can include solar energy rejection, which helps reduce air conditioning costs, and save you money.

Ultra S600 Benefits:

- 3M patented technology utilizes many microlayers in a 6 mil film to provide enormous strength and tear resistance compared to standard PET films
- Improves personal, property and asset protection from hurricanes, blasts and earthquakes
- Comprehensive 3M manufacturer's warranty
- Helps protect from the harmful effects of UV light and helps to reduce fading of interior furnishings
- Typical applications include helping to deter break and entry
- Meets Safety Glazing Standard CPSC 16 CFR Category II (400 ft./lb.) and ANSI Z97.1, and passes Intensified Weathering Test
